

QUALITRU
SAMPLING SYSTEMS

TRU DRAW®

The TruDraw® Single Samplers are designed for drawing samples up to two ounces in size. The TruDraw Single Samplers work with all TruStream Septa and are available in the following options:

- **TruDraw Sterile** (PN 112021) is designed for anywhere a small aseptic sample is required. It is available in individual sterile packages with an attached 18g needle for a leak-proof sample.
- **TruDraw** (PN 112022) is for cost-effective pre-pasteurization sample collection. It is sold with a detached 18g needle and easily assembles for a leak-proof sample.

BENEFITS OF OUR TRUDRAW SINGLE SAMPLERS

- Virtually eliminates the risk of external contaminant exposure, ensuring **sampling accuracy**.
- Our **tamper-evident cap** helps ensure a controlled chain of custody at the start of the process.
- Improves operation **efficiency** by reducing the need to transfer samples and **minimizing waste**.
- **Meets bacterial Appendix J** requirements for Grade "A" PMO.
- **Meets NCIMS and Appendix N** Grade "A" PMO test method requirements for antibiotic residue collection at milk plants, receiving stations, or transfer stations.
- **Compatible** with DairySpec FT, BactoCount IBCm 3.0, MPA II Dairy Analyzer, Tango FT-NIR Spectrometer, Fossomatic™ and MilkoScan™ analytical testing equipment.

Leaders in the science of aseptic and representative sampling.

Your Test Result is Only as Accurate as Your Sample!
