

# QUALITRU SAMPLING SYSTEMS SUPPLIES FOR RELIABLE SAMPLE COLLECTION

QualiTru offers a complete line of sterile sampling supplies that integrate seamlessly with our ports and septa. From routine microbiological testing to troubleshooting and large-volume sample collection, our sampling supplies help you collect accurate samples while maintaining aseptic integrity.

## Sterile Syringes

Reliable sampling for everyday testing.

- Ideal for silos, inline systems, and bulk tanks
- Individually packaged and sterile
- Secure Luer-Lock connection
- Available in 60mL and 100mL sizes
- **Under \$1.00!**

## QualiTru Point Tip Side-Hole Needles

Smooth sampling for viscous or difficult products.

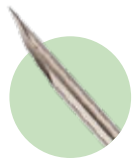

- 14g design for thick products
- Point-tip design aids clean, user friendly insertion through septa
- Side hole improves sample flow and consistency
- Available in 2" and 4" lengths

## Bevel Tip Needles

Used in combination with syringes to pull samples on a silo or inline. Available in 14g to 23g.

- Ideal for general purpose liquid sampling
- Supports fast sample draw for low-viscosity products

## TruDraw® Sterile Single Samplers

Collect a sample and eliminate the transfer step.

- Two-ounce sterile container
- Minimizes contamination risk
- Reduces waste compared to traditional syringe sampling
- Tamper-evident cap supports chain of custody
- **COMING SOON:** 2" 14g side-hole needle TruDraw Single Sampler

## TruMotion™ Sampling Collection Bags

Ideal for continuous flow, representative inline sampling.

- Utilizes a peristaltic pump to draw liquid samples over period of time
- Sterile fluid path maintains aseptic sampling integrity
- Supports continuous flow, representative or composite sampling
- Collect samples up to 2L

## TruStream™ Sampling Collection Bags

Ideal for large volume sampling.

- Sterile fluid path maintains aseptic sampling integrity
- Compatible with a flow clamp to slow or manage flow manually
- Collect samples up to 7L

## Why Trust QualiTru Products

Designed specifically for QualiTru sampling systems

Maintain aseptic sampling integrity

Consistent product quality and dependable supply

Trusted by dairy and liquid food processors for over 40 years
